

Spatial Computing Lab – Spring 2024 Usage Guidelines

To provide a clean/productive learning environment, please observe the following guidelines while utilizing the Spatial Computing Lab.

- 1) Wash your hands in the buildings restroom prior to entering the lab or utilize the hand sanitizer provided as you walk into the lab.
- 2) Upon entering the lab each day during it's open availability hours, make sure to sign the lab's sign in sheet writing down your first/last name and your UNM email address on it.
- 3) To promote a comfortable working environment during open availability hours it is requested everyone work quietly to themselves and try to keep an empty workstation between other lab users, provided space is available to do so.

The lab's operating hours are from **9 A.M. - 5 P.M.** Monday through Friday. The lab is utilized as a classroom and is not available for general use during instructional hours. If you have questions regarding lab access or would like to request after hours or weekend access, contact Mark Evans via email at: marke@unm.edu
